### **\*\* Club Projects \*\***

**Pistol Range:** We are looking for donations to start a Pistol Shooting Range. There have been many requests to shoot pistols, but the rifle range has an occasional conflict with rifle shooters. See one of the Directors if you are willing to donate. The first stage of this 2 stage project will cost about \$10,000.00

**Cracked Front Window:** We would like to replace the cracked front window in the entry way. The estimate to replace is \$800.00 A donation to this project would really dress up the building front.

**Golf Cart:** Our golf cart seems to be nearing its end. If anyone has one they could donate to the club, we could really use it. The cost of repairs needed are too much for the condition of our golf cart.

**Club House Roof:** The shingles are the original shingle when it was built, and one glance you can see the roof is on barrowed time. See one of the Directors if you can donate to this project.

The Board will set up separate accounts for donations made specifically for a project. As you can see, there are many places where financial help and volunteer help is needed. Please give this some serious thought and make some kind of donation of cash or time to help the club remain the fun shooting place that it is! **Bill Foyo, Club President**
