FIREARM SAFETY TRAINING

Firearm safety is very important to the continued success of any shooting program. Safety depends on the person handling the firearm and the training must start at the youth level. WRGC holds several Extended Range Days during the summer/fall to complete the DNR's on-line classroom program. Visit the DNR website or go to www.HunterCourse.com. The range day is conducted by WRGC's Volunteer DNR Certified Firearm Safety Instructors. Visit our website for more information and registration.
